 - A. Compiling
 - B. Computer programming
 - C. Interpreting
 - D. Object oriented programming

Answer: A

7. The java and Visual Basic .NET belong to this type of programming language.

- A. Assembly language
- B. Machine language
- C. High level programming language
- D. Object oriented programming language

Answer: D

8. The control that is used to display text in other parts of the application.

- A. Button
- B. Checkbox
- C. Label
- D. Textbox

Answer: C

9. The process of writing, testing and maintaining computer programs.

- A. Computer programming
- B. High level language programming
- C. Machine language
- D. Object oriented programming

Answer: A

10. It is a programming language that uses 0's and 1's.

- A. Assembly language
- B. Machine language
- C. High level programming language
- D. Object oriented programming language

Answer: B

11. A window that lists the solution name, the project name and all the forms used in the project.

- A. Project window
- B. Properties window
- C. Solution explore
- D. Windows form designer

Answer: C

12. It translates high level language instructions into machine code. Line by line, as the program is begin run.

- A. Compiler
- B. Interpreter
- C. Language
- D. Translator

Answer: D

13. The program that supports the creation of application for wireless, internet-enabled handheld devices.

- A. High level language
- B. Low level language
- C. Machine language
- D. Visual Basic .NET

Answer: A

14. It translates all high level instructions into machine code first before running the program.

- A. Compiler
- B. Interpreter
- C. Language
- D. Translator

Answer: A

15. It allows the user to design the user interface for an application.

- A. Class library
- B. Solution explorer
- C. Toolbox
- D. Windows form designer

Answer: C

16. It is a comprehensive, object-oriented collection of reusable types that you can use to develop applications.

- A. Class Library
- B. Properties Window
- C. Solution Explorer
- D. Windows Form Designer

Answer: A

17. It contains several items or controls that you can use in your applications.

- A. Class library
- B. Property windows
- C. Toolbox
- D. Windows form design

Answer: D

18. It display the properties that are associated with an object.

- A. Project window
- B. Properties windows
- C. Solution explorer
- D. Windows forms designer

Answer: B

19. It is collection of services and classes designed to simplify the application development.

- A. .Net Framework
- B. Class library
- C. Solution Explorer
- D. Visual Basic

Answer: B

20. It is used for building windows and web application

- A. .Net Framework
- B. Object Oriented Programming
- C. Visual Basic .Net
- D. Windows Forms

Answer: A

21. Character

- A. Valid
- B. Invalid

Answer: A

22. It can contain 0 to 20 billion Unicode characters

- A. Byte
- B. Char
- C. Date
- D. Double

Answer: A

23. **ProjecName

- A. Valid
- B. Invalide

Answer: B

24. It can contain value between -35,768 and 32,767

- A. Byte
- B. Double
- C. Integer
- D. Short

Answer: B

25. Boolean

- A. Valid
- B. Invalid

Answer: A

Topic two all easy

26. Grade>75

- A. Valid
- B. Invalid

Answer: A

27. 349 Name

- A. Valid
- B. Invalid

Answer: B

28. New

- A. Valid
- B. Invalid

Answer: A

29. Quiz2

- A. Valid
- B. Invalid

Answer: B

30. It can contain negative values within the range of -1.79769313486232E308 to 4.906565841247E-324 and positive value within 4.906565841247E-324 to 1.79769313486232E308.

- A. Byte
- B. Double
- C. Integer
- D. Single

Answer: B

31. Visual_Basic_Net

- A. Valid
- B. Invalid

Answer: A

32. It can contain numeric values between 0 and 255.

- A. Byte
- B. Double
- C. Integer
- D. Single

Answer: C

33. It can contain negative between 3.402823E+E38 and -14.4401298E-45 and positive values between -14.4401298E-45 to 3.402823E+E38.

- A. Byte
- B. Double
- C. Integer
- D. Single

Answer: A

34. It can contain values between 0 and 65,535.

- A. Byte
- B. Char
- C. Date
- D. Double

Answer: D

35. VB.Net

- A. Valid
- B. Invalid

Answer: B

36. It can contain either True or False

- A. Boolean
- B. Byte
- C. Object
- D. Short

Answer: A

37. It can contain date between January1,0001 and December 31,9999.

- A. Byte
- B. Date
- C. Char
- D. Double

Answer: B

38. It can contain any data type.

- A. Boolean
- B. Byte
- C. Object
- D. Short

Answer: B

39. _Activity2

- A. Valid
- B. Invalid

Answer: A

40. It can contain values within the range of -2,147,483,648 and 2,147,483,648

- A. Byte
- B. Double
- C. Integer
- D. Single

Answer: C
